Introduction

Discover the Open Learning Creator platform, a SaaS tool for creating and managing interactive educational content and documentation spaces.

Overview

Contemporary Open Learning Creator is a powerful SaaS platform designed for educators and organisations to create, manage, and deliver interactive educational content. You can build multi-page courses, design engaging assessments like MCQs and true/false questions, and organise documentation spaces efficiently. The platform emphasises transformative pedagogy, shifting from traditional didactic methods to technology-mediated, authentic student learning experiences.

With tools for uploading HTML presentations, Keynote zips, and rich text editing (bold, italic, lists, alignments), you streamline content creation. Access your dashboard at <https://app.contemporarylearninghub.co.za/creator.html> to get started.

KEY FEATURES

		
Interactive Course Builder	Content Uploads	Transformative Tools
Create multi-page courses with components like MCQ editors, true/false questions, and external links. Supports rich formatting and alignment options.	Easily upload HTML files, Mac Keynote ZIPs, or presentations. Convert them into interactive modules seamlessly.	Leverage pedagogy-focused features for authentic learning, including statement builders and visual editors.

For Educators and Learners

 **Educators**  **Learners**

Transformative pedagogy empowers you to move beyond transmitting information to fostering deep, authentic student learning. Contemporary Learning Creator mediates this through intuitive tools:

- **Didactic to Dynamic:** Shift from static teaching to interactive experiences.
- **Technology Integration:** Embed videos, images, and custom components effortlessly.
- **Scalable Documentation:** Manage project docs alongside courses in one space.

Advanced Pedagogy Details

Use features like left/right indents, colour pickers, and info icons to enhance engagement. Track progress with built-in analytics.

Sign Up and Login

Visit <https://app.contemporarylearninghub.co.za/creator.html> and use OTP login. Enter your email to receive the code.

Create Your First Course

Click "Create" and select "Multi-page Course". Add components like text editors or question builders.

Build Content

Format with bold, lists, or alignments. Upload presentations via drag-and-drop.

Publish and Share

Preview with "Continue", then publish. Share links with learners.

Educators

Learners

Engage with interactive modules featuring OTP login for secure access. Experience transformative learning through mediated technologies and real-world applications.

Benefits of Transformative Pedagogy

Transformative pedagogy empowers you to move beyond transmitting information to fostering deep, authentic student learning. Contemporary Learning mediates this through intuitive tools:

Didactic to Dynamic: Shift from static teaching to interactive experiences.

Technology Integration: Embed videos, images, and custom components effortlessly.

Scalable Documentation: Manage project docs alongside courses in one space.

Advanced Pedagogy Details

Use features like left/right indents, color pickers, and info icons to enhance engagement. Track progress with built-in analytics.

Quick Start

Getting Started description: Set up your account, log in, and create your first course or documentation project in under 5 minutes

Prerequisites

 Ensure you have:

- A modern web browser (Chrome, Firefox, Safari, or Edge) [Chrome is best]
- A valid email address for OTP verification
- Internet connection for dashboard access

Open Learning Creator provides a simple web-based interface. No downloads required.

Register and Log In with OTP

Follow these steps to create your account and access the dashboard.

Visit the Open Learning Creator website

The first time you visit the Open Learning Creator, you will be asked for your email.

Enter your email

Provide your email address.

Click or Tap to Send OTP to receive a one-time password via email.

Verify with OTP

Enter the 6-digit code from your email.

Click or Tab the Continue button. You now access the dashboard.

 Use the same browser for consistent sessions.

Dashboard Tour

The dashboard features intuitive navigation for course creation and management.

DASHBOARD ITEMS

Courses

View, edit, and create multi-page courses.

Components

Access MCQ editors, true/false questions, and formatting tools.

Projects

Manage documentation spaces and upload presentations.

Key sections include Multi-page Course for structured learning, **Upload HTML** or **Upload Presentation** for quick imports, and formatting toolbar with bold, italic, lists, and alignment options.

Create Your First Multi-Module Course

Build a course in minutes

Start New Course

From the dashboard, click **New Course** and click the **Multi-page Course** item. Enter a title like "Introduction to Learning Design".

Add Pages

Select a component and use the editor for include your content or transformative pedagogy sections.

Save and Preview

As you create your course, you can **Save** and **Preview** the course.

Publish

Review the pages, then click **Save File**, **Export to SCORM** (for your LMS) and as a **PDF** document via the browser's Print function (for the best result, activate ☒ Background graphics). Share the course link with students.

Add Text and Basic Formatting

Enhance content with the built-in editor.

- **Bold** (`_format_bold_`), **Italic** (`_format_italic_`),
